

## Third-Party Biller Details Query Letter

Please email your your answers to this questionnaire, your full integration document, your testing account information, and your test purchase information to cho@toomuchmedia.com.

#### **Basic Information**

Company Name:	
Your name:	
Your email:	
Your phone number:	
Your TMMID (you must register for a TMMID at tmmid.com)	
Your NATS version number:	
Name of Developer:	
Developer's phone number:	
Developer's AIM/ICQ:	
Name of Project Manager:	_
Project Manager's phone number:	
Project Manager's AIM/ICQ:	
What processing types do you support (for example: CC, Check	, Dialer):
What transaction types do you support (for example: initial, cred	lit. void)?:

#### **Definitions**

- transactionid -- a unique identifier for each transaction
- subscriptionid -- a unique identifier for each subscription
- transaction reference id -- for credits, chargebacks, and reversals. The identifier for the original transaction being credited/etc.
- passthrough variable -- a variable we can use to pass custom information, which will be included with initial transactions (for postbacks and/or polling).

- instant upgrade -- an immediate upgrade from trial to full membership status. Force a rebill to occur now, instead of the end of the initial period.
- cross sell -- a sale to a different site, that is made at the time of the initial signup.

To integrate with NATS as a 3rd party biller, there needs to be a url we redirect surfers to in order to view

• upsell -- a sale to a different site, that is made after the initial signup. Upsells happen without requiring the credit card number.

#### Join Page

your join page

What is the	url we need to red	lirect to? _		<del></del>
Please list v	vhat fields we can	send to you	r join form url,	and whether they are required by your system
Field	Required	Туре	Max Length	Description

Required fields to be sent:

passthrough variable.

## Return URL

After the surfer has fille whether or not the surf	ed out your join form, your system needs to redirect the surfer back to our fer joined.	system,
How do we set the UR	RL to redirect to?	
Please list the fields th	nat will be passed to us on the return url:	
Field	Description	

#### Required fields:

- passthrough variable
- Indication whether member was approved.

## Notification of Initial, Rebill, Credit, and Chargeback Transactions

You need to send information about initial, rebill, credit, and chargeback transactions. NATS can get that information in two formats:

- 1. Your system sends NATS a postback.
- 2. NATS polls your reporting script on a regular basis. (Preferred)

**NOTE**: Notification of the surfer joining must be sent via postback, but the rest of the transactions can be recorded either through a postback or a reporting script.

recorded either through	n a postback or a reporting script.	
Do you have a postbac	ck system?	
Do you have a reportir	ng script?	
•	either (optional for reporting script. To process initials, we need our pas	sthrough
	ifications Using Postbacks  TS information about transactions using a postback, please fill in the fo	llowing table
Field	Description	
		_

Fields requ	ired by NAT	ΓS:					
•							

- Passthrough variable (if posting initials)
- Transactionid
- Subscriptionid
- Reference Transactionid (required for credits, chargebacks, and reversals)
- Join Option Identifier
- Amount
- Currency (required for multi-currency support)

## IP Addresses (for postbacks only)

Please list every IP address that will send information to NATS:

Optionally, please give us a URL where we can download an updated list in a computer readable format of IP addresses that will send information to NATS. To make upgrades to your service easy, we highly recommend you provide this URL.

For example, a url like this:

https://example.com/ip\_list.txt

Which contains:

1.2.3.4|1.2.3.5|1.2.3.6|1.2.3.7

URL:			
URI:			

If you are not able to provide us with an updated list of IP addresses, how can nats verify that a post is from your system?

## **Transaction Notification Using a Poll to a Reporting Script**

If you elect to let NATS get information about transactions by accessing a reporting script, please fill in the following information.

What is the U	RL of the	e reporting s	cript?	
What is the fo	ormat of th	he reporting	script (csv, >	xml, SOAP)?
Please list the	e fields th	at should be	e sent to the	reporting script.
Field	Re	quired	Туре	Description
Please fill in tl	he followi	ing table wit	h the fields re	eturned for each transaction:
Field		Description	n	

Required fields: Fields required by NATS:

- Transaction Type
- Indication whether transaction was approved
- Passthrough variable (if reporting initials)
- Transactionid
- Subscriptionid
- Reference Transactionid (required for credits, chargebacks, and reversals)
- Join Option Identifier (if reporting initials)
- Amount
- Currency (required for multi-currency support)
- Date

Are there any restrictions on the reporting (ie: date range or frequen	cy)?	

# Instant Upgrades (Optional)

Does your s	ystem suppo	ort instant upgrad	des?		
What is the	format of the	e post (ie https po	ost, XML, SOA	P, etc)?
